The value is not necessarily the same as the ETCs' intraday trading price. Investors should not expect to buy or sell the ETC at the determined NAV value. Performance quoted represents past performance. Current performance may be lower or higher than average annual returns shown. NAV performance is displayed in base currency (USD), price performance is displayed in trading currency (e.g. EUR). Brokerage or transaction fees will apply. Past performance is no guarantee of future performance, and your invested capital may be at risk.
