## Advantages of ELTC

### Simple trading, with no digital wallet required

Buy and sell like any stock or ETF through your regular broker or bank. No new account needed, just enter the ticker or ISIN on trading platform.

### Institutional-grade asset custody

The Litecoin is kept in cold-storage at a regulated custodian, and all assets are secured by an independent trustee, thus eliminating issuer default risk.

### 100% backed & physical redemption

You are legally entitled to the underlying litecoin, and you can redeem the ETC for the cryptocurrency, alternatively to selling on exchange.

### Regulated and listed on major exchanges

Issued in Germany under German regulatory oversight, the ETC's primary listing is on XETRA, the largest ETF exchange in Europe.

## Key risks

2. Any decision to invest should be based on the information contained in the relevant prospectus.
3. ETC securities are structured as debt securities, not as equity.
4. ETCs trade on exchanges like securities. They are bought/sold at market prices which may be different to the net asset value of the ETC.

|---------------|------|---------------------|---------------------|
| Ticker        | ELTC | NAV daily change    | ▲ 1.61% / ▲ \$ 0.10 |
| Base currency | USD  | NAV YTD change      | ▼ -57.98%           |
| NAV (USD)     | 6.07 | NAV since inception | ▼ -41.61%           |

The ETCs' NAV value is determined at 4.00 pm CET of each business day, and represents the value of one unit; it is calculated by using the relevant spot price of the underlying digital asset. The value is not necessarily the same as the ETCs' intraday trading price. Investors should not expect to buy or sell the ETC at the determined NAV value. Performance quoted represents past performance. Current performance may be lower or higher than average annual returns shown. NAV performance is displayed in base currency (USD), price performance is displayed in trading currency (e.g. EUR). Brokerage or transaction fees will apply. Past performance is no guarantee of future performance, and your invested capital may be at risk.
