

100% physically backed, this ETC gives you seamless exposure to Polkadot's Dot governance token. Polkadot is a blockchain protocol that enables cross-blockchain transfers of any type of data or asset.

DOTetc – ETC Group Physical Polkadot

Overview

Ticker	PLKA
ISIN	DE000A3GVKX6
WKN	A3GVKX
TER	1,95 %
Asset Class	Digital Assets/ Cryptocurrency
Underlying Exposure	Polkadot (DOT)

Composition

Advantages of PLKA

Simple trading, with no digital wallet required

Buy and sell like any stock or ETF through your regular broker or bank. No new account needed, just enter the ticker or ISIN on your trading platform.

Institutional-grade asset custody

The Dot is kept in cold-storage at a regulated custodian, and all assets are secured by an independent trustee, thus eliminating issuer default risk.

100% backed & physical redemption

You are legally entitled to the underlying Dot and you can redeem the ETC for the cryptocurrency, alternatively to selling on exchange.

Regulated and listed on major exchanges

Issued in Germany under German regulatory oversight, the ETC's primary listing is on XETRA, the largest ETF exchange in Europe.

Key risks

1. Investor's capital is at risk and investors may not get back the amount originally invested and should obtain independent advice before making a decision.
2. Any decision to invest should be based on the information contained in the relevant prospectus.
3. ETC securities are structured as debt securities, not as equity.
4. ETCs trade on exchanges like securities. They are bought/sold at market prices which may be different to the net asset value of the ETC.

Performance

Since Inception

NAV

The net asset value (NAV) of an ETC represents the net \$ value per underlying cryptocurrency

11-08-2022

Ticker	PLKA	NAV daily change	▼ -2.88% / ▼ \$ -0.07
Base currency	USD	NAV YTD change	▼ -69.18%
NAV (USD)	2.29	NAV since inception	▼ -42.59%

The ETCs' NAV value is determined at 4.00 pm CET of each business day, and represents the value of one unit; it is calculated by using the relevant spot price of the underlying digital asset. The value is not necessarily the same as the ETCs' intraday trading price. Investors should not expect to buy or sell the ETC at the determined NAV value. Performance quoted represents past performance. Current performance may be lower or higher than average annual returns shown. NAV performance is displayed in base currency (USD), price performance is displayed in trading currency (e.g. EUR). Brokerage or transaction fees will apply. Past performance is no guarantee of future performance, and your invested capital may be at risk.

Custody

ETC Group has partnered with the leading providers of digital asset custody

Regulated Certified

Coinbase Custody is an independent qualified custodian and is a fiduciary under New York state banking laws. Coinbase custody is also the first crypto custodian to be issued both the SOC 1 Type 2 and SOC 2 Type 2 reports.

Cold Wallets

All ETC assets are kept in cold wallets. Cold wallets mean that the digital wallets are not connected to the internet. This protects the wallets from hacks, unauthorized access, and other vulnerabilities.

High Security Standard

Coinbase Custody has developed its own first-class key generation protocol to generate cold storage addresses for custody wallets.

Insured

Coinbase industry leading insurance policy protects both online and offline assets across all of Coinbase's products.

Holdings

Disclaimer

PRIOR TO ANY INVESTMENT IN AN ETC ANY POTENTIAL INVESTORS MUST NOTE THAT:

- Any potential investors should seek independent advice and should consider the relevant information provided in the base prospectus and final terms relating to the ETCs, in particular the risk factors set out therein.
- The invested capital is at risk and losses up to the total invested amount possible. The product is subject to inherent counterparty risk associated with the issuer of the ETCs and may suffer losses, including a total loss, if the issuer fails to fulfil its contractual obligations.
- The legal structure of the ETC is that of a debt security. ETCs are traded on stock exchanges, just as other securities. Market prices may differ from the net asset value of the ETC.

The ETC discussed herein is issued by ETC Issuance GmbH under its Programme for the issuance of Bonds secured by Cryptocurrencies. The relevant base prospectus has been approved by the German Bundesanstalt für Finanzdienstleistungsaufsicht as competent authority under the Prospectus Regulation, whereby such approval should not be construed as an endorsement of the ETC.

The information contained in this fact sheet is provided solely for informational and marketing purposes. Such provision of information does not constitute an offer to sell securities, nor is it an advice, a recommendation or a solicitation of an offer to buy securities.

INVESTORS IN THE U.S., THE UNITED KINGDOM, OR CANADA

The ETC is not intended to be offered and shall not be offered to any retail investor in the United Kingdom.

This fact sheet does not constitute an offer of securities for sale in the United States and the ETC referred to in this fact sheet may not be offered or sold in the United States absent registration or an exemption from registration.

Information contained in this fact sheet is not, and under no circumstances is to be construed as, an advertisement or any other step in furtherance of a public offering in the United States or Canada, or any state, province or territory thereof, where neither the issuer nor its products are authorised or registered for distribution or sale and where no prospectus of the issuer has been filed with any securities regulator. Neither this document nor information in it should be taken, transmitted or distributed (directly or indirectly) into the United States.

The statements made in this fact sheet are based on evaluations, economic data, own assessments and forward looking statements at the time of the preparation of the fact sheet and are subject to ongoing changes.
